
We are sorry to see this year ending. As this year passed we all have met with many a new and eventful experience here at Central Junior High.

As you go through life you will meet new and wonderful experiences, but the good old days will never be forgotten. In order to re-collect the happy memories you have spent here in 1953-54, we print this Annual Reflector.

In later years you may turn to it and it will bring back pleasant and beautiful memories of your years at Central.

Editor - In - Chief

Dedication . . . . . .

Students and teachers of Central are indeed proud and glad to dedicate this Annual Reflector to Mr. John C. Distler, former printing teacher here. For twenty-five or more years Mr. Distler, known among us all as the students, and teachers, friend, gave unstintingly of his knowledge and his own time to lead his boys in printing the Reflector.

Mr. Distler had the rare ability to combine practical trade with artistic finesse. Many times we have heard him say, "I will not turn out work until I can have it look right to me." Many times we have heard his students extoll him both as a man and a teacher. He had also the rare quality of getting along with boys because he was fair, honest, humorous, and possessed of a habit of giving himself to their welfare.

Our thanks for the inspiration from his teaching life. It sets a standard by which we shall measure real teachers for the years to come.

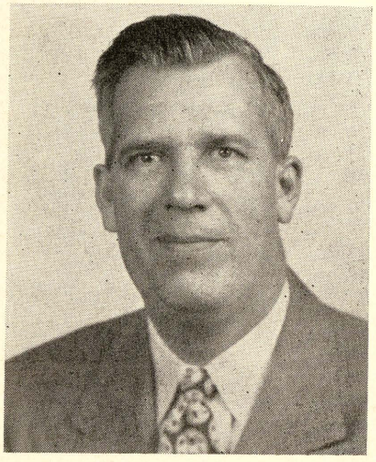
Mr. Chaffee, who is recovering from illness at his home, joins with me in saying goodbye to our ninth grade pupils who are leaving Central Junior to enter Saginaw High School next September. We hope your future school days will be both happy and successful ones.

We would like to express our appreciation to the seventh and eight grade pupils who will be with us again next year. We know that you will continue to be good citizens and do your best to make Central a better school.

For all of you we wish the best that life has to offer.

Leslie J. Turner



Once again it is a pleasure to greet the pupils of Central Junior High School. I trust that you have had a successful year in school during 1953-54, and that continued health, happiness and success await you in the years which lie ahead.

Leslie J. Turner

To say farewell always brings a tinge of sadness, but to wish you the full connotation of that word could never bring unhappy feelings. That you may fare very well in all that you under take and that you will all make full use of every talent which you have been given; so that you may grow every day of your lives in the knowledge and love of your fellow-men, is my sincere wish for each of you and for your happiness.

School Closes

The end has come, as come it must
  To all things; in these sweet June days
The teacher and the scholar trust
  Their parting feet to separate ways
They part; but in the years to be
  Shall pleasant memories cling to each
As shells bear inland from the sea
  The mumur of the rhythmic beach.

O youth and beauty, loved of all
  Ye pass from girlhood, gate of dream;
In broader way your footsteps fall
  Ye tell the truth of all that seems.
Her little realm the teacher leaves,
  She breaks her wand of power apart,
While, for you love and trust, she gives
  The warm thanks of a grateful heart.

Here is the sober summer noon.
  Contrasted with your morn of spring.
The warning with the waxing moon,
  The folded with the outspread wing.
Across the distance of the years
  She sends her God-speed back to you;
She has no thought of doubts or fears;
  Be but yourselves, be pure, be true.

And prompt in duty; heed the deep,
  Low voice of conscience; through the ill
And discard round about you keep,
  Your faith in human nature still
Be gentle; unto griefs and needs,
  Be pitiful as women should,
And, spite of all the lies of creeds,
  Hold fast the truth that God is good.

Give and receive; go forth and bless
  The world that needs the hand and heart
Of Martha's helpful carefulness
  No less than Mary's better part
So shall the stream of time flow by
  And leave each year a richer good,
And matron loveliness outlive
  The nameless charm of maidenhood.

And when the world shall link your names
  With gracious lives and manners fine,
The teacher shall assert her claims,
  And proudly whisper, "These were mine!"

THE RAINBOW

Triumphal arch, that fills the sky
  When storms prepare to part,
I ask not proud Philosophy
  To teach me what thou art.
Still seem, as to my childhood's sight,
  A midway station given,
For happy spirits to alight,
  Between the earth and heaven

What Parents of New Students Should Know

This article is dedicated to the parents of Central's students and to the pupils of elementry school, with the purpose of informing them as to the educational facilities Central Junior has to offer.

Classes in Central consist of English, mathematics, social science, general science, and gym which are required subjects. Other subjects from which the student choose two electives are: shops, home economics, typing, art-journalism, vocal music, band, Latin, orchestra, and auditorium.

Parts of speech, proper use of language, spelling and composing of oral and written book reviews, and drills of all types of reading are taught in seventh grade English classes.

The seventh grade mathematics classes are taught the rules of fractions and decimals and the use of the compass and protractor in making geometric figures.

In the seventh grade auditorium classes students memorize poems and learn how to recite them. Seventh grade boys are required to take at least ten weeks of vocational course work in woodwork, metal, printing, and mechanical drawing.

A semester of cooking is required for each seventh grade girl where she learns the uses of the kitchen, and gains some experience by stewing prunes, baking muffins, and apples, and cooking eggs in many different ways. At the end of the semester a complete meal is prepared and served by the class. Their teacher gives tips on how to serve, and tells the important points on table etiquette.

When a semester has been spent in cooking class, a girl takes sewing. In this class she learns how to darn stockings, make pot holders, aprons, and to hem towels.

In wood shop and metal shop, students may make their choice of projects. They pay for the materials used in making them. The printing students are taught to set up type in the seventh grade. Students in mechanical drawing make several drawings during the marking period. In order to receive an "A" a boy is required to turn in eighteen drawings.

Every pupil who has arts round classes has a different class one hour each day for ten week periods. The arts-round classes consist of vocal music, where group singing is stressed, auditorium, the class that uncovers stage talents and enables the student to receit before his classmates; and art, where drawing and carving abilities are developed. The last of these subjects is the hygiene class, where the boys and girls are taught the parts of the body, and any information that will keep the body healthy.

In the eighth grade arithmetic classes, pupils learn the use of decimals and percentage in business.

History is another required subject in the eighth grade. The students learn about the great events of the United States, and make projects about the past. Once a week students are selected to give oral reports.

In the eighth grade gym classes, girls con centrate on learning to play volleyball, and the boy's main game is basketball.

General science classes teach astronomy, the study of stars, and geology, the study of the earths surface. Each student is required to make a project on one of the many geolgical topics. During the period when the class is studying weather, each pupil keeps a record of the daily weather, conditions, and later makes a weather chart.

In 7th. grade social science classes they have a course in geography. Geography is a study of our nation its resources and its people.

Journalism may be taken in the ninth grade if the student has an "A" or "B" average in English. In journalism the articles are written for the monthly and annual Reflector.

Ninth grade English pupils continue the study of grammer and spelling. They are required to read two long novels which are "David Copperfield" and Ivanhoe. Toward the end of the year, indivdual projects are made about these novels. Each ninth grader is required to give at least one book report a marking period.

A choice may be made between ninth grade business mathmetics and algebra. Business mathmetics prepares a pupil for commerical courses that are taken later in high school. Arithmetic fundamentals are reviewed and more advanced methods are learned. Algebra deals mainly with equations. It is especially needed for those who wish to carry on in engineering or other occupations which require a higher knowledge of mathmetics.

In the ninth grade gym classes they concerate on learning to do exercises, dances, and study all the rules and fine points on basketball and volley ball.

Science classes spend the first semester study ing about electricity, and during the second semester they study the principles of light,

Civics is also a required subject of ninth graders. It is the study of citizenship and government. State and local laws are analyzed very carefully. In most classes state or city projects are made. The constitution of the United States is very carefully studied.

Speaking of colleges some of those institutions seem to be lowering entrance requirements with an end in view—not to mention promising tackles.

Just Think!

Just think some night the stars will gleam
Upon a cold, grey stone,
And trace a name with silver beam,
And lo! twill be your own.
That night is speeding on the greet
Your epitaphic rhyme.
Your life is but a little beat
Within the heart of Time.
A little gain, a little pain,
A laugh lest you may moan;
A little blame, a little fame,
A star gleam on a stone.

Journalism Class

Journalism Class

During the past year it has been the job of the journalism class to bring you the latest news. All of the stories have to be corrected in spelling, wording, and in many other ways.

Our journalism teacher is Mr. Stanley Boertman. Our Editor-in-Chief is Euripides Economou, and our Assistant Editor is Jame Cross. Their job is to check the stories and see if they are good enough to go into the Reflector. If they are marked good, they are checked by Mr. Boertman. The Secretary is Carol Ann Reid. Her job is to see that all the lines that each person has handed in are recorded.

The Editorial writers are Euripides Economou and James Cross. Feature writers are Dale Wachner, and Pat Brown; Assembly Reporters are Shirley Engelhardt, and Leo Jordan. Humor Editors are Leodus Greer, and Tyler O'Keefe. Inquiring Reporters are Penny Schartow, Steve Barris, and Bob Niederstadt: Exchange Editor is Sharon Pitch. Sports Editors are Dick Jones, and Jim King. The Poetry Editor is Sharon Woidgka. It has been through these people that our school Reflectors come out. They go out, get the news, bring it in, and write it up.

Without the guidance of Mr. Stanley Boertman our journalism teacher, many of the good stories that you have read in the school Reflectors, wouldn't have been there. We very much appreciate the help and guidance that he has given us, and we all extend our thanks to him, and to all of the student body for everything that they have done to help us put out a good Reflector for Central Junior High School during the school year of 1953-1954.

Teachers Quotations

Mr. Roush "Okay Next!"
Mr. Watkins "Hold the basketball."
Miss Mack "Quiet please."
Mr. Barr "All right people in your seats."

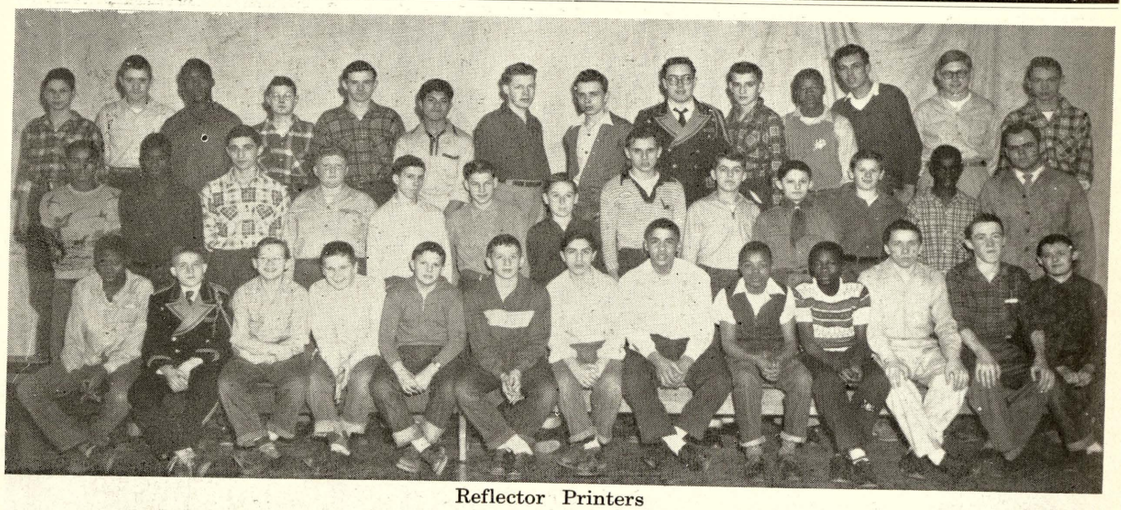
Mrs. Habel "Go and get your tardy excuse for yesterday."



Reflector Printers

Reflector Printers

During the school year 1953 - 54, the Reflector Printers have done a lot of fine and helpful work. Mr. Dunne, the Printing teacher, with the help of these boys has printed every monthly Reflector that has come out in the past year and has printed everything in this Annual Reflector.

They have also printed material for the plays and P.T.A. and almost anything having to do with the school.

These boys work, setting up type and printing it. They do most of this during their class period, but sometimes on their own time.

This year's Reflector Printers are:

Majorettes

We, at Central, are proud to have such a fine group of Majorettes this year. They have practiced many hours after school with Mr. Mathews to get precision timing. We want to thank Mr. Mathews and the majorettes.

The head majorette this year is Margaret Hayes. Other majorettes are; Ann Slaggert, Jo Anne Hildebrant, Barbara Maturen, Beverly Murlick, Jean Dryer and Marlene Bragman.

Girls who would like to become majorettes must know something about twirling a baton and be willing to spend long hours after school practicing the routine.

Central's Stage Crew

During the past school year, we have had many fine plays, assemblies, P. T. A. meetings and many other events which required the help of the boys on stage crew. These boys have done lots of work on the stage, such as making scenery, and taking care of the curtains and movie screen which has to be set up every day. They also come in before school in the morning and do odd jobs that have to be done

The members of this year's stage crew are; Ron Woolever, Terry Brinkman, Ron Perry and Terry O'Neill.

Looking around at our class reunion, it appears as though we are entering the Metalic age gold in our teeth, silver in our hair, and lead in our pants.

If all our misfortunes were laid in one common heap and each invited to take an equal portion most folks would be contented to take just their own and depart.

Art Club

The Art Club is a group of Centralites who are interested in doing various types of art work including P.T.A. decorations, hall exhibits, and posters.

P.T.A. decorations were center pieces for the tables. There were decorations for St. Valentines Day, Easter, Christmas, Thanksgiving, and Halloween.

The head of the vocal music department is Mr. Jack Peterman. He teaches six music classes in which they learn to read notes, to count time, and sing. In his sixth hour class he has a choir formed. It is made up of eighth and ninth graders.

There are also three other choirs, that are led by Mr. Peterman. They are the "A Capella Choirs," the "All Girls Choir," and the "Seventh Grade Chorus."

These choirs have performed in Christmas festivals, assemblies,and in many other programs.

Along with our regular service squad we have a morning, and two noon duty squads whose job it is to keep order in the halls, Cafetera and Auditorium, also to keep pupils out of the hall and courts during lunch hours.

We have two captains. They are Kent Boertman and Mary Barnes.

Their jobs are to go around and see that the noon duty service squads are on their posts, and also to see that they do a good job. Noon duty service squad is made up of eighth and ninth graders who have average or above average marks.

Noon duty Service Squad cannot do all this by themselves so they have supervisors. They are; fourth hour, Mr. Schroeder, fifth hour, Mr. Pabalis and Mr. Plambeck.

The cafeteria is one of the hardest jobs for noon duty. Mr. Carger and Mr. Watkins, our gym teachers, are helping out in the cafeteria and the auditorium.

Volleyball

The volleyball team, under the direction of Miss Dorothy Lundbom, worked hard for the first two months of school to get ready for competition. This year's team has shown an improvement over last year's by winning the championship. They won the championship on November 10, 1953, when they played Webber and won both games. This is the first volleyball championship in nineteen years. They showed good teamwork and sportsmanship.

The members of the volleyball team were: Audrey Beatty, Brenda Bushrow, Ann Zolinski, Mary Zolinski, Ann Stephens, Esslene Burk, Ann Castillo, Elaine Lund, Roberta Vogan, Sally Korniski, Mary Mayer, Astrida Kalins, Donna Pries, Dorris Atwater, Annie Welsch,Melva Henderson,and Pirllie Lawson. Our sincere thanks go to Miss Dorothy Lundbom for her work and having such a wonderful team.

There was an earth quake in a small town recently which frightened the inhabitants terribly. One couple sent their little boy to stay with an uncle in another district, explaining the reason for the visit. A day or two later the parents received this telegram;
"Am returning your boy. Send earth quake."

Maintenance Force

We are very proud to present to you our capable Maintenance force. There are six janitors, one engineer, two firemen, two janitresses, and one laundress.

The head janitor is Lewis Brackley, who has been here for twenty-five years. Hector Hawkins cleans the boy's and girl's gym and the bandroom. On the third floor Adolfs Saberts is in charge, Earl Tucker takes care of the second floor, and Joe Karas cleans the boy's rest rooms, and the library.

The two janitresses are Hazel Graves, and Lena McGrandy. They clean the auditorium, the Cafeteria and the girl's rest rooms.

The engineer is Carl Phillips, the fireman are John Stimpson and Roy Morris. Chauncey Thayer works at night in the shops and boiler room.

Our laundress is Lucy Reetz. She washes the sheets from the nurses room and the towels from the cooking classes, cafeteria and the gyms, for the whole school system.

The student body and faculty of Central Junior High School wish to thank all of the janitors, janitresses, engineers, firemen, and the laundress for the splendid work that they have been doing here at Central.

Junior Basketball Team

Junior Basketball

This year the Junior Basketball team won a share of the title, tying with North and South with 6 wins and 3 losses. After winning their first three games the juniors dropped their fourth start to South.

They won their fifth game over Webber, but they were upset by North in their next encounter. In the first meeting with North, we won the game 55-13, but North surprised us and won their next game 27-24. The next two games came out with Central on top.

The final game was the most important of the season. The game was staged at Central, the opponents were North. The team from North came into the game with a 5-3 won loss record. Central came into the game with a record of 6 wins and 2 defeats.

If Central won this game, it meant that they would own sole possession of first place. But if they met defeat, there would be a three-way tie for first place between South, North and Central.

The game was a low scoring game with Central leading at the half 9-6. The game opened up in the second half. The score at the end of regulation time was 28-28, so the game went into overtime. During the overtime North scored 2 points while Central scored 1. The final score: North 30 Central 29. This created a three way tie for first place.

The squad consisted of; Tyler O'Keefe, Charlie Griffin, Otis Reed, Gary Potts, Dick Jones, Larry Rousseau, Sam Moses, Leonard Daniels, Jim Hooper, Archie Dale, Jack Levy, and Bill Howson.

The team captains of this year were Charlie Griffin and Dick Jones.

The head coach was Mr. Edmund Watkins. Mr. Watkins deserves a lot of credit for producing a championship team.
